Hari Krishna Kousik Ogirala

Technical Architect — Salesforce Platform, Integration & Agentic Solutions

Hyderabad, India · kousikohk@gmail.com · +91 89510 50900 · LinkedIn

Technical Architect at Salesforce.com with 12+ years on the Salesforce platform. I design and deliver enterprise customer programs and internal tooling end to end — requirements, architecture, Apex/LWC, integration, testing, release, and production support. Strong advocate for responsible AI; ships Agentforce solutions with agentic loops (plan → act → observe → refine). Dreamforce 2025 showcase for ONZ Zero Touch Switch. Domain depth in **public sector**, telecom, financial services, and FMCG. Pursuing Anthropic **CCAF** and **CCAP**.

TECHNICAL SKILLS

Salesforce: Sales, Service, Experience Cloud, CPQ, Revenue Cloud, Flow

Languages: Apex, Java, JavaScript; Python for scripting

DevOps: SFDX, CI/CD, Git, managed packages, Flosum

AI / Agentic: Agentforce, multi-agent orchestration, token optimization, Slack MCP, Cursor & Claude

Development: Apex, LWC, Aura, Visualforce, JavaScript, SOQL/SOSL

Integration: REST/SOAP, middleware, event-driven patterns

Architecture: Application, integration, and data design reviews

Test automation: Playwright CLI — E2E flows, regression, CI runs

DOMAIN KNOWLEDGE

- **Public sector** — Citizen services, 311/case intake, agency workflows, Service Cloud for government
- **Telecom** — Subscriber journeys, care operations, Agentforce digital switch (ONZ)
- **Financial services** — Contact-center and customer ops on Experience Cloud
- **FMCG / enterprise sales** — Large CRM replacement and process automation
- **Internal IT** — ITSM, platform engineering, release governance

NON-TECHNICAL SKILLS

- Stakeholder alignment and translating goals into technical roadmaps
- Pre-sales: discovery, estimates, architecture narratives, proposals
- Workshop facilitation, requirements elicitation, design reviews
- Team leadership, mentoring, and escalation management
- AI advocacy and change enablement with adoption tracking
- Vendor evaluation, risk management, and cutover coordination

PROFESSIONAL EXPERIENCE

Technical Architect

Jun 2025 – Present · Hyderabad

Salesforce.com

- **ONZ (Vodafone New Zealand) — Agentforce:** Architect for Zero Touch Switch; showcased at Dreamforce 2025.
- **Revenue Cloud Advanced:** Led legacy CPQ & Billing decommission and migration path.
- **Industries Cloud:** Expanded Integration Procedures and DataRaptors for scalable integrations.
- **ITSM:** Architecture and delivery for Salesforce ITSM.
- **Internal tooling:** Metadata sanitization; website-to-Markdown app; Postman-based mock callout framework; production-to-Slack alerts; Slack MCP for Cursor; AI adoption dashboard.
- Contributor to multi-agent orchestrator and token optimization; applies agentic-loop patterns; Playwright CLI for test automation.
- Champions practical AI adoption across engineering and business stakeholders.

Senior Software Engineer

Nov 2024 – Jun 2025 · Hyderabad

IRIS Software Group

- Scaled Salesforce CRM, data, DevOps, and middleware practices for internal business apps.
- Standardized integration patterns and CI/CD across host teams; delivered LWC and Apex/API services.

Architect

May 2024 – Sep 2024 · Hyderabad

Dextara Datamatics

- Technical Architect for **Fundpanel Lightning Migration** — Classic to LEX, Aura-to-LWC, phased cutover.
- Pre-sales support: solution shaping, estimates, architecture narratives, and demo-ready proposals.

Business & Integration Architecture Specialist Dec 2020 – Apr 2024

Accenture

- Led Salesforce programs for **Unilever**, **SCB**, **Maxis**, and **ONE**.
- **Unilever:** Large-scale CRM replacement — vendor evaluation, configuration, integration, multi-team release.
- **SCB Call Center:** Experience Cloud portals, REST/SOAP integrations, workflow automation.

Team Lead / Senior Developer Jan 2020 – Dec 2020

Equinix

- Led Salesforce customization and integration for global internal apps; owned reviews, testing, and release quality.

Senior Success Agent / Team Lead Oct 2016 – Dec 2019 · Hyderabad

Salesforce.com India

- Resolved production Apex, integration, Flow, and configuration issues for enterprise customers at scale.
- Mentored engineers on debugging, escalations, and platform best practices.

Software Developer Apr 2013 – Sep 2016 · Bengaluru

Unisys India · Capgemini

- Built **City of Philadelphia 311** — citizen service requests, case automation, Flows, and integrations.

SELECTED PROGRAMS

- **ONZ** — Agentforce Zero Touch Switch · Dreamforce 2025
- **Revenue Cloud Advanced** — CPQ/Billing migration
- **Unilever** — Enterprise Salesforce replacement
- **SCB Call Center** — Experience Cloud + APIs
- **Philadelphia 311** — Public-sector citizen services
