Hari Krishna Kousik Ogirala

Technical Architect — Salesforce Platform, Integration & Agentic Solutions

Hyderabad, India · kousikohk@gmail.com · +91 89510 50900 · LinkedIn

Technical Architect at Salesforce.com with 12+ years on the Salesforce platform. Designs and delivers enterprise programs and internal tooling end to end — requirements, architecture, Apex/LWC, integration, testing, release, and production support. Strong advocate for responsible AI; ships Agentforce with agentic loops (plan → act → observe → refine), Topics/Actions, grounding, and orchestration. Functional depth across quote-to-cash, service operations, ITSM, and citizen-service case management; technical depth across Revenue Cloud, Industries OmniStudio, Experience Cloud, and CI/CD. Pursuing Anthropic **CCAF** and **CCAP**.

TECHNICAL SKILLS

Salesforce: Sales, Service, Experience Cloud, CPQ, Revenue Cloud, Flow

Languages: Apex, Java, JavaScript; Python for scripting

DevOps: SFDX, CI/CD, Git, managed packages, Flosum

AI / Agentic: Agentforce, multi-agent orchestration, token optimization, Slack MCP, Cursor & Claude

Development: Apex, LWC, Aura, Visualforce, JavaScript, SOQL/SOSL

Integration: REST/SOAP, middleware, event-driven patterns

Architecture: Application, integration, and data design reviews

Test automation: Playwright CLI — E2E flows, regression, CI runs

DOMAIN KNOWLEDGE

- **Public sector** — Case intake, SLA routing, citizen portals, Service Cloud automation
- **Telecom** — Subscriber lifecycle, care ops, zero-touch order/switch journeys via Agentforce
- **Financial services** — Contact-center workflows, Experience Cloud portals, API-led servicing
- **FMCG / enterprise sales** — Quote-to-cash, territory/process automation, CRM replacement
- **Internal IT** — ITSM request/incident/change, platform tooling, release governance

NON-TECHNICAL SKILLS

- Stakeholder alignment and translating goals into technical roadmaps
- Pre-sales: discovery, estimates, architecture narratives, proposals
- Workshop facilitation, requirements elicitation, design reviews
- Team leadership, mentoring, and escalation management
- AI advocacy and change enablement with adoption tracking
- Vendor evaluation, risk management, and cutover coordination

PROFESSIONAL EXPERIENCE

Technical Architect

Jun 2025 – Present · Hyderabad

Salesforce.com

- **Agentforce (zero-touch switch):** Designed Topics, Actions, and agentic loops for automated order/switch journeys; solution showcased at Dreamforce 2025.
- **Revenue Cloud Advanced:** Decommissioned legacy CPQ & Billing; mapped products, pricing, and billing functions onto RCA data model and processes.
- **Industries / OmniStudio:** Scaled Integration Procedures and DataRaptors for reusable, low-code integration and transformation patterns.
- **ITSM:** Architected request, incident, and change management on Salesforce — catalog, assignment, SLAs, and operational reporting.
- **Platform tooling:** Metadata sanitization; HTML-to-Markdown converter; Postman-collection mock callout framework; production event → Slack alerts; Slack MCP for Cursor; AI adoption metrics dashboard.
- Built multi-agent orchestration and token-optimization patterns; Playwright CLI for E2E/regression automation in CI.

Senior Software Engineer

Nov 2024 – Jun 2025 · Hyderabad

IRIS Software Group

- Hardened Salesforce CRM data models, sharing, and middleware contracts for internal business applications.

- Standardized REST integration patterns and SFDX CI/CD pipelines; delivered LWC UIs and Apex service layers.

Architect May 2024 – Sep 2024 · Hyderabad

Dextara Datamatics

- Led Classic → Lightning (LEX) migration: Aura-to-LWC rewrite, page layouts/flows redesign, phased cutover and regression.
- Pre-sales architecture: discovery, effort models, solution narratives, and demo-ready technical proposals.

Business & Integration Architecture Specialist Dec 2020 – Apr 2024

Accenture

- Architected enterprise Salesforce replacements for sales automation, service operations, and supply-chain-adjacent processes.
- **CRM modernization:** Vendor evaluation, module configuration, REST/SOAP integrations, multi-team release orchestration.
- **Contact-center platform:** Experience Cloud portals, CTI-adjacent workflows, API integrations, and agent productivity automation.

Team Lead / Senior Developer Jan 2020 – Dec 2020

Equinix

- Led Apex/LWC customization and system integrations for global internal apps; owned code review, testing, and sprint releases.

Senior Success Agent / Team Lead Oct 2016 – Dec 2019 · Hyderabad

Salesforce.com India

- Diagnosed production Apex, Flow, sharing, and integration failures for enterprise orgs; drove root-cause fixes and guidance.
- Mentored engineers on debugging, governor limits, escalation hygiene, and platform best practices.

Software Developer Apr 2013 – Sep 2016 · Bengaluru

Unisys India · Capgemini

- Built public-sector 311 / citizen-service apps — case intake, SLA routing, Flows, Visualforce/Apex, and third-party integrations.

CAPABILITY HIGHLIGHTS

- **Agentforce** — Zero-touch journeys, Topics/Actions, Dreamforce 2025 showcase
- **Quote-to-cash** — Legacy CPQ/Billing → Revenue Cloud Advanced
- **OmniStudio** — Integration Procedures & DataRaptors at scale
- **Service / Experience Cloud** — Portals, contact-center, case automation
- **Public sector** — 311-style citizen services on Service Cloud

EDUCATION & CERTIFICATIONS

B.Tech, Information Technology
GITAM University, India · 2008 – 2012

Application Architect | Integration Architect | Deployment Architect | CPQ Specialist | PD I · Admin · App Builder | Flosum
